

of gin; $\frac{3}{4}$ of a pint of wine and one quart of alcohol per week for the entire institution comprising some over 500 people.

Q. Do you put the alcohol in your soup and things of that sort?

A. Largely, yes sir. I have reckoned up how much whiskey it would take to support a man a year providing he used 8 ounces a day, and if I reckon correctly, about 20 gallons. Eight ounces is half a pint.

By Dr. Butler:

Q. You never saw any case of violence?

A. I have what I considered so.

I refer to the case of the young man who was immediately discharged. I became connected with the institution June 14 1866.

That is all the case of violence or abuse that I have any knowledge of seeing.

Q. Did you ever have any reason to suppose that any of that liquor was ever stolen?

A. No, sir.

W. B. Lockie, recalled.

By Mr. Baker:

Q. State what changes have been made since
