

I visited the New Hampshire hospital at ~~under Bancroft~~ under Bancroft, Northampton hospital ^{under Dr. Barle}, the hospital at Brattleboro under Dr. Draper, at Worcester under Dr. Park; also visited Danvers. The hospitals at Worcester and Danvers have been lately built and are magnificent buildings.

Q. Were those 5 as leading representatives of the hospitals as any to be found in New England? A. I think so.

Q. Are they under as eminent superintendents, medically and from an insane stand point considered? A. I should give Dr. Bancroft a very high place and also Dr. Barle. I had it so good an opportunity to know Dr. Draper. I came to the conclusion that we were fully up to the average in progressiveness and modernness. In the six hospitals I would give over the third place, leaving 2 before it and 3 after it.

Q. When a patient at the hospital has some local disease is that local difficulty treated? A. If a man was taken sick with pneumonia he would be treated as a patient with that in addition to the insanity. I think it is a
