

after the case had occurred that the next time they reported a lady's bowels in that condition you should not give rhubarb and oil A. Never.

By Mr. Baker

Q. If the patient was only 4 months along should you expect to find the bowels distended or enlarged to any extent

A. You might or might not, I should say they would not be very much.

Q. You would not expect it to be much enlarged any way

A. No, sir.

By Mr. Butler:

Q.
