

Ques. Do you remember that? Ans. I am not entirely clear whether I do. I would not like to say I was with him. I was either with him or heard the matter spoken of the next day.

Ques. From your own knowledge whether the temperature in the lodge rooms has ever been such that patients have suffered from cold by being put into the lodges?

Ans. I have no reason to think any body has suffered by reason of cold. I think they have suffered by reason of heat. That is to say, not excessively, but I have generally felt, and it is shared by many I know, that the building has always been kept too warm until this winter. This winter thermometers have been hung up and kept up, and before they were not kept up. They would get broken and were not always restored.

Ques. When a patient is put into the lodge for instance, is there a man who goes about every hour, the night watchman, to the lodge among the other parts, and whose duty it is to see if any
