

winter season we have vegetable hash
 once a week in the morning. And
 then we send eggs occasionally in the morning.
 We generally cook for a meal about 125
 dozen eggs. Could not say how often we
 send that number into the hall. I should pay
 $\frac{2}{3}$ of the canned fruit and berries go
 into the halls to the boarders.

Q. How many green peas do you furnish
 to the house? A. I think the 4th July
 we had 30 bushels. Last year, during
 the season, we had $56\frac{1}{2}$ barrels of green peas
 and 91 barrels of beans. Our dinner for the
 Fourth is salmon, roast lamb, potatoes,
 vegetables or peas, cracker pudding, white
 bread and crackers. On these holidays
 we send lemonade all through the halls.

Q. How much does it take to
 go through? A. I believe I made 2
 barrels last year. On Thanksgiving day
 we send a turkey dinner through the
 building, and vegetables and plum pudding.
 On Christmas after dinner we always
 have assembled in the hall and given
 them a treat there which is usually
 frosted cake, apples, radish confecturary, and mince
