

It is in view of having the apartments warmer on account of the slight clothing of the patients.

Ques. How long ago was that provision first made that the lodges were to have a greater degree of heat.

Ans. When the heating apparatus was put in 20 years ago.

Ques. What should you say would be the lowest extreme to which the temperature might run in the lodge rooms at night.

Ans. I do not think it ever goes down much below 50 if it does any, the lodge halls would be considerable warmer.

Ques. What do you desire to have as about the right temperature for the sleeping rooms at night. Ans. Where patients have clothing on their beds, 40 is warm enough.

Ques. You think the patients are more quiet with a cool temperature. Ans. I am satisfied they are more quiet in a cool room than in a very warm room. The summer heat is very irksome to patients.

By Mr. Butler.

Ques. You discharged this young man without looking into the case. Ans. I discharged him for the act without any explanation, did not ask him the reason.

Ques. Discharged him without asking or knowing anything about it. Ans. Yes, I often do.
