

it could be proved there from five. I
would not spend any more in protection

By Mr. Hall:

I think now we have plenty of water.
We shall be perfectly satisfied with it
until it proves otherwise. We are liable
to be mistaken. If we had a
more severe drought than we had
last year I think we would go
through a third longer without any doubt

By Mr. Baker:

My method of putting down the cases in
the hospital is the same as that
in use by all the hospitals in the
country so far as I know.

By Mr. Hall:

Q. Do you know whether in the McLean
hospital they put down last year any
patient as cured who came back
within a year? A. I don't. There
was no patient ^{in this hospital} who was discharged
as cured twice in the same year.
None of the 57 discharged as cured
were counted twice in the year.
