

- Q. What was done with her after the operation was performed A. She was removed to the sick room I think the next morning. She had watches that night.
- Q. Wasn't she able to be removed that day A. It was ~~thought~~ best not to remove her until the next morning. I ~~thought~~ so too.
- Q. How long did she stay in the sick room A. Some weeks, I don't recollect.
- Q. Then she was taken where A. Back to the same ward
- Q. Was that one of the worst or best wards A. A very good ward.
- Q. What was her mental condition before this delivery A. At times she was violent; would throw things, dishes some times.
- Q. Her insanity was intermittent was it A. Yes. At times she was quiet.
- Q. Liable to paroxysms A. Yes sir.
- Q. And then periods of quiet A. Yes.
- Q. Was it the same after she came back A. Yes, sir, about the same.
- Q. Did it increase A. Yes, I think so.
- Q. Was the increase gradual or sudden A. Gradual.
