30 WEST 44th STREET
NEW YORK CITY

16th June 31

Dear Mrs Eckstorm

In order to absolve myself of inattention to one of your problems I am taking the unusual course of giving it a New York slant to relieve the monotony.

I am strongly inclined to think that the Element Wadchu is concealed in the second syllable, which you are inclined to think is accidental; resulting in Peg or Peeg-Wadchu-es-et — of course contracted to Pegwachet or Pigwachet. I think you have two examples of this form, early, but this is from memory.

Merely dislocated from the reservation temporarily as I return on Saturday.

Yours sincerely

A. W. E. Bowles
