

went into the laundry and worked until May 1880. A part of the time I worked in the fire room all the time I was there, after getting through in the laundry. I might have worked under Sanson a month, put it all together. I have seen Sanson and Peter Karies together. I have seen Sanson cuff Peter, throw coal at him, throw water onto him, and that is all. When I saw Peter he was always with his chest exposed. I never ~~can~~ tried it up or saw it tied up. He went so in winter and summer.

By Mr. Baker:

I was not with Sanson all at one time, but at different times a month, putting it all together. Various men used to be in and out during the time I was there. Never saw Sanson make any change in his conduct on account of that; every thing went as just the same. I never spouted and played with Peter, more than to talk with him. Don't recollect that I ever fooled with any of the men round there.
